Figure we should have a thread dedicated to errors found in the episodes. With DVD, its now fun to hunt for things that you never noticed at first broadcast.

Im rewatching many of the episodes so I can write up summaries, so far Im on episode 4 - The Missing Key

Some of the "errors" I found:

Pidge is supposed to be wearing his Voltron Uniform.. Here, he's in his normal attire.

Wrong colored boots

he's in his normal attire again

However, this next one is funny. Remember, SVEN is still the pilot of Blue Lion in this episode:

Seems that he's into dying his hair blonde and likes wearing pink ^_^
