

Sorry for the Delay

Sorry for the delay! Had a computer meltdown and I was forced to reformat and reinstall mostly every application I had. My computer is just way too old. Need to start looking for a better one.

Anyway, Im also working on a Myspace Layout for all the fans out there. Its coming along, but its going to take a bit. Myspace is a bit finicky when it comes to making sure things work out right. I hope to have it ready by the end of the month.

Episode 7 summary and image gallery for the Lion Force Voltron should be completed by Friday. Hang loose
